Introducing The
Stellar
Collection

Imagine a
home built for
better living.

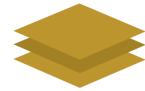

Where natural light and gentle breezes are all that's needed to warm and cool the room.

Where you can take in the sounds of your surrounds, then step inside to your peaceful retreat.

Where you can make lasting memories, with the peace of mind that your home is built to stand the test of time.

Welcome to The Stellar Collection by AVJennings.

One of a
kind.

With a superior insulation system, the Pro9 walls make our Stellar Collection homes more durable, sustainable and energy efficient.

The Stellar Collection achieves a minimum 8-star NaTHERS (Nationwide House Energy Rating Scheme) rating, and can be built to achieve up to a 9.4 stars. This is close to a perfect score of 10 stars, where no heating or cooling would be required for the home.

From October 2023, all new Australian homes will be required to be built to a minimum 7 stars, placing The Stellar Collection homes well above standard.

AVJennings is the first major Australian residential developer to build with the innovative Pro9 walling system, making The Stellar Collection unlike any other homes on the market.

Style meets
sustainability.

Style meets sustainability, in a home that is better for you and the environment.

Designed to use up to 50 per cent less energy, The Stellar Collection could see some households achieve a cost saving of up to 77 per cent on their heating and cooling costs. With power bills set to surge, this is good news for your back pocket and our planet.

Like all of our turnkey homes range, The Stellar Collection homes are all architecturally designed and offer a range of benefits like contemporary, open plan living, stunning colour schemes, fittings and fixtures and come fully landscaped; so all you need to do is move in.

Building brighter futures.

For over 90 years, we've helped build brighter futures by creating communities across Australia and New Zealand where people want to belong and grow with.

Building a home is an important decision and one of the biggest investments you'll make. The Stellar Collection is a culmination of some of our greatest innovations in one home, offering the ultimate in safety, durability, and energy efficiency.
